

SIU Medical Library Newsletter

February 2019

Volume 9, Issue 1

Welcome Lynne Ferrell, New Head of Scholarly Resources

The Medical Library would like to welcome Lynne Ferrell, our newest faculty

member and Head of Scholarly & Institutional Resources. She has replaced Geoff Pettys who has been promoted to Head of Reference & Education Services after Carol Gordon's retirement.

Lynne received her M.S. in Library and Information Science from the University of Illinois' Graduate School of Library and Information Science (Number 1 in the country!). She also has advanced certification in Special Collections. We are very excited to have Lynne join our team!

Lynne was formerly the Medical Librarian at Memorial Medical Center for 18 years and comes to us with a wealth of experience and knowledge.

Regular Hours

February Training Schedule	4

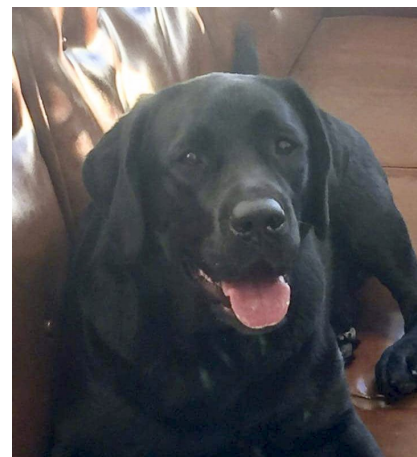

Coming Soon: Therapy Dog Study Break

The Library's February Study Break will have a special guest in addition to the usual treats and coffee. Stop by the Dirksen Conference Room on February 27th from 2:00 - 4:30 p.m. to meet Gibson, the Sangamon County Courthouse Facility Dog and Certified Service Dog! Gibson, a 3 ½ year old black lab, will be here for hugs, play time, and a little stress relief as our MS2s prepare for their next exam.

Gibson's handler, Tami

Richmond, and Diane Bell, the Director of Victim Services, will also be here to answer questions about their work with Gibson and Support Dogs Inc. Gibson joined the State's Attorney's staff in 2017 and has been featured in the State Journal Register for his comforting and calming presence with victims of abuse and violence, especially children. His advanced training also allows him to sit

in the courtroom during trials. Stop by the Dirksen on Feb. 27th to meet Gibson and have some fun!

Upcoming Health Observances

February

- American Heart Month
- 1-7: African Heritage & Health Week
- 14: National Donor Day

March

- Bleeding Disorders Awareness Month
- 1–16: Patient Safety Awareness Week
- 14: World Kidney Day

April

- Autism Awareness Month
- Sexual Assault Awareness and Prevention Month
- Child Abuse Awareness

Highlighted Resources

The Medical Library is pleased to announce the addition of two new electronic resources:

Natural Medicines

Natural Medicines is widely respected as the most authoritative resource available on complementary, alternative, and integrative therapies and aims to provide health professionals unbiased, evidence-based information on such treatments. In addition to its acclaimed database of 90,000+ assessments of commercial dietary supplements, *Natural Medicines* also includes inter-

action and effectiveness checkers, pregnancy and lactation checkers, and information about potential adverse effects. To access [Natural Medicines](#) use the link on the Medical Library's [Key Resources](#) page and log-in using your SIU credentials.

Diagnostic and Statistical Manual of Mental Disorders (DSM-5) Library

DSM Library

The DSM-5 is well regarded as the most comprehensive, current, and critical resource available for mental health clinicians and researchers. The

DSM-5 Online Library makes this resource more assessable by providing electronic access to not only the DSM-5, but also the DSM-5 Handbook of Differential Diagnosis and DSM-5 Clinical Cases. Over 30 additional journals, textbooks, and study guides published by the American Psychiatric Association are also included in this collection. Special thanks to the SIU's Morris Library in Carbondale for their financial support for this resource! To access the [DSM-5 Library](#), use the link of the Medical Library's Key Resources page and log-in using your SIU credentials.

New! Graphic Medicine Collection

Take a look at our new Graphic Medicine collection housed in the glass case just to the right of the Library front desk.

Conveying information, experience and storytelling using comics is nothing

new – but it is becoming increasingly popular in medical education, patient care, and personal narrative.

Visit our subject guide on Narrative Medicine to learn more about Graphic

Medicine (<http://libguides.siumed.edu/narrativemedicine>) and if you have a personal favorite Graphic Medicine title, drop us a note at reference@siumed.edu to suggest it.

A selection of some of the titles in the new Graphic Medicine Collection.

Physician Assistant Program Poster Session

On November 29 – 30, 2018 an Interprofessional Practice Management Seminar was held at SIU on the Carbondale campus. The event hosted a Healthcare Professions Recruitment Fair and an Interprofessional Workshop. During this event, Physician Assistant - Phase II students presented their Master's Project at a symposium session held at the SIU Student Center. Second year PA students presented their

projects as a poster session in which faculty, residents, Physician Assistant - Phase I students, School of Allied Health students, and local healthcare providers were able to review the research posters and ask questions. The event was well attended and provided an interactive forum for all in attendance.

Students and local healthcare providers attended the PA-Phase II students poster session.

Exhibit Corner

Women Physicians in WWI

The Library is currently hosting an American Medical Women's Association traveling exhibit honoring the contributions of American Women Physicians in WWI.

The exhibit will be in the library until March 4th, so take a few minutes to view the books, photos, and biographies of some of these amazing women!

If you can't make it to the library, visit the exhibition website (<https://www.amwa-doc.org/wwi-exhibition/#>) for an image gallery, biographies, and more. You can also view the accompanying film, "At Home and Over There" on Vimeo: <https://vimeo.com/256150842/837b2df026>

Black History Month

"Together We Stand," a display created by the SIUSOM Student National Medical Association, will be in the Library lobby throughout February.

Coming Soon: Call for Submissions

What does wellness look like? How do you take the journey into well-belling? The National Academy of Medicine has put together a traveling exhibit called "Expressions of Clinician Well-Being" that may provide answers to these questions.

The exhibit is a collection of personal expressions of clinician burnout, resilience, solutions and well-being. From August 20th to September 20th the Medical Library and the Medical Resource Center will be hosting a joint

exhibit exploring expressions of art, conversation, and personal journeys of well-being.

As part of the exhibit, the Medical Library and Medical Resource Center will be sending a "call-out" for in-house submissions which will be displayed in the exhibit during events held in conjunction - stay tuned!

Upcoming Exhibits

Enos Elementary Art Exhibit

March 7th–23rd

Scope

March 29th–April 16th

Sangamon County Art Exhibit

April 19th– May 4th.

Reed Williams Memorial & ArchivesSpace

On January 18th, 2019 SIU-SOM held a memorial celebrating the life and accomplishments of Dr. Reed Williams. The event also served as the unveiling of the Library's Founding Figures Collection of Medical Education. The collection serves as the inaugural collection in our new archival platform, ArchivesSpace and consists of the scholarly works of four SIU-SOM "founding figures:" founding Dean and Provost Richard Moy, Dr. Howard Barrows, Dr. Roland Folse, and Dr. Reed Williams.

To explore the collection, please visit our Archives Space online portal: <https://libarchive.siumed.edu/public/repositories/2/resources/2>. Additionally, one physical copy of each work has been placed in the School of Medicine Archives so the works of these scholars will be available to researchers for years to come. The library plans to continue to catalogue and add items to ArchivesSpace.
